Acronis Protected 365

The most complete, natively integrated, 7-in-1 protection for Microsoft 365. Increase operational efficiency, simplify adding new services and meet the needs of highly regulated clients.

MSP challenges:

- Delivering an increasing number of services to meet customer demand, close security gaps, ensure compliance, grow revenue and stand out.
- Managing numerous vendors, contracts, products and interfaces, which adds significant overhead, complexity and cost.
- Each new service offered is less profitable, despite revenue growth.

Solution:

- Natively integrated cyber protection, which enables faster growth with superior protection and customer experience.
- Reduces overhead for each additional service, boosting profitability.

Tailor services pitched to Microsoft 365 licenses in use

Complete Microsoft 365 protection, in a single integrated platform

Protect it ALL – confidently protect all aspects of your clients' Microsoft 365 seats with natively integrated data protection, cybersecurity, posture management and security awareness training.

Fastest time to profit

Remove all barriers to product selection, contract negotiation, staff training and client onboarding; just sell and enable services with the flick of a switch to start making money.

Most efficient management

Manage all customers and services in a single multitenant platform, with less time and expertise required. Utilize natively integrated RMM / PSA or integrate with third-party RMM / PSA via ready-built integrations.

Complete, natively integrated, 7-in-1 protection for Microsoft 365, designed for MSPs

Backup for Microsoft 365

Best-in-class, agentless, multitenant, cloud-to-cloud backup, designed for MSPs, including unlimited, free cloud storage. Deploy comprehensive protection for Microsoft 365, Entra ID and 30+ other platforms.

Collaboration Security

Instantly detect and eliminate malicious content in real time, keeping your clients' collaboration tools secure and operational while gaining a new source of high margin revenue.

Security Awareness Training

Acronis Security Awareness Training (SAT), including phishing simulations, helps MSPs keep customers more secure and compliant with cyber insurance requirements, with content that is fun and easy to consume.

eXtended Detection and Response

Acronis XDR delivers natively integrated, highly efficient protection across Microsoft 365's most vulnerable attack surfaces, built for MSPs.

Security Posture Management

Deliver tenant-level Microsoft 365 protection, automate risk remediation and streamline monitoring, billing and user management through a single, multitenant platform.

+ Professional Services Automation

Automate ticketing, project management, time tracking and invoicing while enhancing efficiency, boosting customer satisfaction and ultimately increasing profits.

Advanced Email Security

Stop phishing and spoofing attempts, catch advanced evasion techniques and prevent APTs and zero-day attacks. Managed by email security experts who protectively manage customer email security, reducing overhead.

Email Archiving

Designed for MSPs and featuring powerful search and rapid access that simplifies client adherence to regulations, including GDPR, HIPAA, NIS 2 and more.

The Acronis Platform Advantage

In addition to delivering complete Microsoft 365 protection, the Acronis platform enables faster growth with superior protection and customer experience across all workloads, thanks to the following natively integrated services:

- Backup for 30+ platforms
- Remote Monitoring and Management (RMM)
- Professional Services Automation (PSA)
- EDR, XDR and MDR
- Disaster Recovery
- Data Loss Prevention (DLP)
