## 7 reasons why

## MSPs are switching to Acronis from Datto

## Simplified management for maximized productivity

Acronis Cyber Protect Cloud enables MSPs to achieve peak productivity by integrating Backup, DR, RMM, PSA, security and EDR into a single platform. This streamlined approach enhances productivity and enables MSPs to deliver comprehensive services cost-effectively.

### Effortlessly shield clients with advanced cyber protection MSPs prefer Acronis for its Al-driven cybersecurity and EDR solutions.

Our state-of-the-art system secures clients' data against a wide range of threats, with minimal need for retraining. Acronis' user-friendly EDR makes threat response accessible to all MSPs.
