

PROTECT YOUR OFFICE 365

Backing up Microsoft Office 365® is your responsibility

78%

of companies plan to use or already use Office 365 Cloud-based Business Platform

which is

70,000,000 users

And the number of Office 365 users is estimated to grow significantly by 2018

155,000,000+ users by 2018

70% use email

49% use OneDrive

46% use Office applications

41% use SharePoint Online

BUT MANY BUSINESSES LACK THE PROPER OFFICE 365 DATA PROTECTION

Office 365

Fact 1:

Office 365 does not back up to on-premises storage

"Point-in-time restoration of mailbox items is out of the scope of the (Office 365) Exchange service."

According to Microsoft TechNet Article

Fact 2:

29%

of companies don't protect their cloud data

Fact 3:

80%

of companies have lost data in the cloud

PROTECTING OFFICE 365 IS YOUR RESPONSIBILITY

Here's what you should do:

Back up your Office 365 to another location by implementing 3-2-1 data protection strategy:

3

copies

2

types of storage media

1

off-site: on-premises or in another cloud
