Cost → 17,196 USD

Monte Meredes Mixed Official Rural School, Guatemala

Facility → Computer classroom

Students → 300

Cost → 30,101 USD

What our partners say about us

Sebastian Noelting
Managing Director, RNT Rausch

The Acronis Cyber Foundation Program represents the same values that encouraged me to build the school in a village in the Dominican Republic. We are convinced that problems such as poverty and hunger can only be solved sustainably through education. That is why education must be available to everyone all over the world.

I'm glad that we have been able to partner with Acronis and are now working together towards this goal.

Charles Bass
CMO, Climb Channel Solutions

We are proud to support the Acronis Cyber Foundation with a new classroom in Peru. Learning is at the center of our culture, and educational infrastructure helps communities thrive by improving the lives of individuals and families now and in the future. We're delighted to contribute our share to empowering youth in Peru with the knowledge and educational opportunities they deserve, as they will be the ones to one day make the changes this world needs.

Jan Schmidt
Marketing Director, BUSYMOUSE

We at BUSYMOUSE are proud to do something good far away from home with the help of the Acronis Cyber Foundation Program. As IT service providers, it's especially important to us to bring digital education opportunities to future generations.

Soeron von Varchmin
CEO, Cloudfest

We were honored to work with the Acronis Cyber Foundation Program during CloudFest to raise funds to help support the initiative to bring free quality education to the needy community of San Antonio, Sololá. With this new school, we are giving the children of Guatemala an opportunity to learn about the world and improve their education.

Acronis en GoDaddy helpen scholen in Sierra Leone en Guatemala

Het Acronis Cyber Foundation Program kondigt met trots aan dat de projecten om scholen te bouwen in Sierra Leone en Guatemala zijn afgerond. Beide bouwprojecten werden in samenwerking met GoDaddy, het bedrijf dat ondernemers helpt bloeien, uitgevoerd en dragen bij aan het programmadoel om kinderen te helpen en aan te moedigen door middel van moderne educatieve infrastructuur en leeromgevingen.

Mvo   Onderwijs

De Barbara Junior Secondary School in Sierra Leone was klaar in september 2022. Daar werden drie afzonderlijke gebouwen gebouwd die ontworpen zijn om zo veel mogelijk natuurlijk licht en frisse lucht binnen te laten. De school bevindt zich in het dorp Barbara in het district Port Loko, een landbouwregio in Sierra Leone waar de meeste gezinnen minder dan $2 per dag verdienen. De school, waar meer dan 120 leerlingen naartoe zullen gaan, werd gebouwd met duurzame bronnen die beschikbaar waren in de gemeenschap, zoals bamboe en in elkaar grijpende bakstenen. De bouw begon in december 2021 in samenwerking met de NGO Forikolo. De school is uitgerust met voorzieningen voor kinderen met een handicap en meisjestoiletten waar gratis producten voor persoonlijke hygiëne beschikbaar zijn.

Arsenal support Acronis in Senegal school opening

09 Apr 2019   Share

We are proud to have been able to support the Acronis Foundation with their recent school opening event in Senegal.

Acronis, our official data backup partner, through the Acronis Foundation, helped build a school in Soupa Serere for over 140 children, and we were delighted to be able to support the opening with a donation of Arsenal kit.

The school was built as part of a joint project between the Acronis Foundation and buildOn, and its opening was celebrated by the whole community.

Terrat, Tanzania – The Acronis Cyber Foundation recently opened a computer classroom at Terrat Secondary School, 80 km from the city of Arusha, Tanzania. The new classroom enables computer courses and STEM classes for students in the region. This marks the beginning of Phase 2 of the Acronis Cyber Foundation Schools initiative, which aims to empower children in underserved regions and provide skills that are essential in today's world.

Acronis Cyber Foundation opened the first school in October 2018 in Loongung (Tanzania). In the remote village with around 3,000 inhabitants, the educational situation was extremely poor. Before the arrival of the Acronis Foundation, the village had only one small building, originally built for preschool children and later to accommodate children up to 3rd
