

The graphic features a dark blue background with a grid pattern. In the upper right, there are 3D rendered blue geometric shapes, including a cube and a gear-like structure. The text 'Acronis Cyber Protect Home & Business' is prominently displayed in white, with 'Product overview' in a smaller, light blue font below it.

Acronis Cyber Protect Home & Business

Product overview

For service providers

What

Acronis Cyber Protect Home & Business is an all-in-one, secure backup and AI-driven anti-malware solution for small offices and home users, inspired by Acronis True Image. It's ideal for companies looking to bill end users directly and provide comprehensive cyber protection.

Who

Acronis Cyber Protect Home & Business is designed to secure up to five computers (PCs or Macs), 20 mobile devices and up to 5 TB of cloud storage for small offices, home users and individuals. This solution offers an easy way for service providers to enhance their offerings, increase revenue per user and boost client loyalty.

Where

- Use Acronis Cyber Platform APIs to design and build your own marketplace integration for automated account management.
- Offer subscriptions through third-party e-commerce platforms (like AppDirect).
- Manually set up and manage client accounts using the Acronis Management Console.

Why

- Deliver complete digital protection to users, adding value and building loyalty.
- Generate a new revenue stream for your business.
- Manage all users and view usage reports easily from a centralized console.

When

It's available now. Contact consumer@acronis.com for more information and to start a **free trial**.
