

Resorts World Las Vegas helps ensure worry-free guest experiences by protecting critical data and operations

Resorts World Las Vegas partnered with Agilitec and Acronis to increase data protection, safeguard guest information and support business continuity

Resorts World Las Vegas operates a large-scale, technology-driven hospitality environment where guest data, operational systems and business-critical information must remain secure and available around the clock. As cyberthreats continue to evolve, the organization prioritized a proactive approach to protecting its data assets.

THE SOLUTION

Resorts World Las Vegas selected Acronis for cyber protection and backup capabilities, working with Agilitec as an implementation and strategic services partner. The team deployed Acronis Backup for Microsoft 365 as an additional layer of protection for critical data, creating a secondary recovery option and supporting legal-hold storage requirements.

THE IMPACT

- Added an extra layer of protection for SharePoint data.
- Improved preparedness against ransomware and data loss scenarios.
- Streamlined deployment and accelerated time to value.
- Strengthened collaboration with a trusted strategic technology partner.

KEY CHALLENGES:

- Protecting sensitive guest and business data from ransomware and other cyberthreats.
- Maintaining access to critical SharePoint and business information.
- Ensuring reliable backup and recovery to support uninterrupted operations.

KEY REQUIREMENTS:

- Proactive data protection and cyber resilience.
- A trusted technology partner with strategic guidance and local support.
- Fast implementation with minimal disruption.

#CyberFit
Partner

“Setting up the Acronis solution with Agilitec was a smooth process. Within a week, everything was up and running, and my team had a clear understanding of our objectives and the direction of the implementation.”

— Pete Small, Chief Information Security Officer, Resorts World Las Vegas
